FBED3-DIM1

FBE WIFI SMARTDIMMER

- FBE Dimmer version one need to work with our LED drive to dim the LED dimmable lamp, support both brightness and color temperature adjustment.
- The FBE dimmer use cable to connect the led drive, can work with 48 led drives. - This product work with the wifi signal, no need gateway, however if needed can upgrade to our Geeklink GLSS signal or our BLE signal so that it can work with our host for more flexible scenarios.

TECHNICAL SPECIFICATION

Power Supply	AC-220V
Network	Wifi 2.4GHz.
Support	485 wired communication
Lux	0 - 100% adjustable
Color Temperature	Adjust from 3000 - 6000K

TECHNICAL SPECIFICATION

Controllable Distance	10 - 20 meters
Communication	433 MHz (GFSK)
Rated Voltage	AC 170 - 240V
Rated Current	1.5A
System Requirements	- IOS 9.0 - Android 6 or above
Operating Temperature	0° - 55°C
Relative Humidity	10% - 90% (non condensing)
Support Host	Thinker, Thinker op, Thinker mini, and other hosts with GFSK gateway module
Motor Size	55 x 70 x 260 mm
